<b>Pop-Facts 2009 Supplemental: Demographic Overview</b>	<b>Washington</b>
<p><b>Introduction</b></p> <p>The Pop-Facts Supplemental Report contains updates to selected demographic variables representing a "vintage date" of July 1 2009, in contrast to the standard Pop-Facts release that was targeted to January 1 2009.</p> <p>Although it is possible to make comparisons between the standard and supplemental releases, this should be done with care, because different input data sources and methodologies between the two could provide misleading 'trends'.</p>	
<p><b>Total Population (Standard Release)</b></p> <p><b>Total Population (Supplemental Release)</b></p>	<p>6,596,418</p> <p>6,631,110</p>
<p><b>Total Households (Standard Release)</b></p> <p><b>Total Households (Supplemental Release)</b></p>	<p>2,547,695</p> <p>2,559,728</p>
<p><b>Special Note</b></p> <p>The Pop-Facts Supplemental database does not include data aggregated at the Place or Minor Civil Division (MCD) levels. When these levels are used to define a study area, the results for all supplemental data variables will be zero.</p> <p>Aggregation level used for area                      Supplemental data available for this aggregation                      Number of targets Retrieved</p>
